**Notes to Condensed Financial Statements - (Unaudited)**  
**(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)**

**Note 1 – Background and Basis of Presentation**

The Federal Home Loan Bank of Chicago is a federally chartered corporation and one of 11 Federal Home Loan Banks (the FHLBs) that, with the Office of Finance, comprise the Federal Home Loan Bank System (the System). The FHLBs are government-sponsored enterprises (GSEs) of the United States of America and were organized under the Federal Home Loan Bank Act of 1932, as amended (FHLB Act), in order to improve the availability of funds to support home ownership. We are supervised and regulated by the Federal Housing Finance Agency (FHFA), an independent federal agency in the executive branch of the United States (U.S.) government.

Each FHLB is a member-owned cooperative with members from a specifically defined geographic district. Our defined geographic district is Illinois and Wisconsin. All federally insured depository institutions, insurance companies engaged in residential housing finance, credit unions and community development financial institutions located in our district are eligible to apply for membership with us. All our members are required to purchase our capital stock as a condition of membership. Our capital stock is not publicly traded, and is issued, repurchased or redeemed at par value, \$100 per share, subject to certain statutory and regulatory limits. As a cooperative, we do business with our members, and former members (under limited circumstances). Specifically, we provide credit principally in the form of secured loans called advances. We also provide liquidity for home mortgage loans to members approved as Participating Financial Institutions (PFIs) through the Mortgage Partnership Finance<sup>®</sup> (MPF<sup>®</sup>) Program.

Our accounting and financial reporting policies conform to generally accepted accounting principles in the United States of America (GAAP).

In the opinion of management, all normal recurring adjustments have been included for a fair statement of this interim financial information. These unaudited condensed financial statements and the accompanying notes should be read in conjunction with the audited financial statements and footnotes for the year ended December 31, 2023, included in our 2023 Annual Report on Form 10-K (2023 Form 10-K) starting on page F-1, as filed with the Securities and Exchange Commission (SEC).

Unless otherwise specified, references to we, us, our, and the Bank are to the Federal Home Loan Bank of Chicago.

"Mortgage Partnership Finance", "MPF", "MPF Xtra", "Downpayment Plus", "DPP", "Downpayment Plus Advantage", "DPP Advantage", and "Community First" are federally registered trademarks of the Federal Home Loan Bank of Chicago.

Refer to the **Glossary of Terms** starting on page 60 for the definitions of certain terms used herein.

**Use of Estimates and Assumptions**

We are required to make estimates and assumptions when preparing our condensed financial statements in accordance with GAAP. The most significant of these estimates and assumptions applies to fair value measurements, which includes derivative instruments. Our actual results may differ from the results reported in our condensed financial statements due to such estimates and assumptions. This includes the reported amounts of assets and liabilities, the reported amounts of income and expense, and the disclosure of contingent assets and liabilities.

**Basis of Presentation**

The basis of presentation pertaining to the consolidation of our variable interest entities has not changed since we filed our 2023 Form 10-K. The basis of presentation pertaining to our gross versus net presentation of derivative financial instruments also has not changed since we filed our 2023 Form 10-K. Refer to **Note 1- Background and Basis of Presentation** to the financial statements in our 2023 Form 10-K with respect to our basis of presentation for consolidation of variable interest entities and our gross versus net presentation of financial instruments for further details.

**Note 2 – Summary of Significant Accounting Policies**

Our significant accounting policies adopted through December 31, 2023, can be found in **Note 2 – Summary of Significant Accounting Policies** to the financial statements in our 2023 Form 10-K. We have not adopted any significant new policies in 2024.

**Note 3 – Recently Issued but Not Yet Adopted Accounting Standards**

During November 2023, the FASB issued ASU 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The amendments in this Update are effective for the Bank for the year ended December 31, 2024 and for interim periods beginning January 1, 2025. The Bank has a single operating segment and is currently evaluating impacts of this ASU to its financial statement disclosure.

**Note 5 – Investment Debt Securities**

We classify debt securities as either trading, held-to-maturity (HTM), or available-for-sale (AFS). Our security disclosures within these classifications are disaggregated by major security types as shown below. Our major security types are based on the nature and risks of the security:

- U.S. Government & other government related - may consist of the sovereign debt of the United States; debt issued by GSEs; debt issued by the Tennessee Valley Authority; and securities guaranteed by the Small Business Administration (SBA).
- Federal Family Education Loan Program - asset-backed-securities (FFELP ABS).
- GSE mortgage-backed securities (MBS) - issued by Fannie Mae and Freddie Mac.
- Government guaranteed MBS.
- State or local housing agency obligations.

We have no allowance for credit losses on our investment debt securities and we have elected to exclude accrued interest receivable from the amortized cost in the following AFS and HTM tables. See **Note 8 - Allowance for Credit Losses** for further details on these amounts.

**Pledged Collateral**

We disclose the amount of investment debt securities pledged as collateral pertaining to our derivatives activity on our **Condensed Statements of Condition**. See **Note 9 - Derivatives and Hedging Activities** for further details.

**AFS Securities in a Continuous Unrealized Loss Position**

The following table presents unrealized losses on our AFS portfolio for periods less than 12 months and for 12 months or more. These losses are considered temporary as we expect to recover the entire amortized cost basis and neither intend to sell these securities nor consider it more likely than not that we will be required to sell these securities before the anticipated recovery of each security's remaining amortized cost basis. In the tables below, in cases where the gross unrealized losses for an investment category are less than \$1 million, the losses are not reported.

**Note 6 – Advances**

We offer a wide range of fixed and variable-rate advance products with different maturities, interest rates, payment characteristics and options.

We have no allowance for credit losses on our advances and we have elected to exclude accrued interest receivable from the amortized cost in the following tables. See **Note 8 - Allowance for Credit Losses** for further details on these amounts.

The following table presents our advances by terms of contractual maturity and the related weighted average contractual interest rate. For amortizing advances, contractual maturity is determined based on the advance's amortization schedule. Actual maturities may differ from contractual maturities because some borrowers have the right to call or prepay advances with or without penalties.

**Note 9 – Derivatives and Hedging Activities**

Refer to **Note 2 - Summary of Significant Accounting Policies** in our 2023 Form 10-K for our accounting policies for derivatives.

We transact most of our derivatives with large banks and major broker-dealers. Some of these banks and broker-dealers or their affiliates buy, sell, and distribute consolidated obligations. We are not a derivatives dealer and do not trade derivatives for speculative purposes. We enter into derivative transactions through either of the following:

- A bilateral agreement with an individual counterparty for over-the-counter derivative transactions.
- Clearinghouses classified as Derivatives Clearing Organizations (DCOs) through Futures Commission Merchants (FCMs), which are clearing members of the DCOs, for cleared derivative transactions.

*Managing Interest Rate Risk*

We use fair value hedges to manage our exposure to changes in the fair value of (1) a recognized asset or liability or (2) an unrecognized firm commitment, attributable to changes in a benchmark interest rate, such as the Secured Overnight Financing Rate (SOFR). We use cash flow hedges to hedge the variability in the total proceeds received from certain debt issuances, such as rolling forecasted zero-coupon discount notes or SOFR-indexed bonds, attributable to changes in the benchmark interest rate, by entering into pay-fixed interest rate swaps.

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. We may also use economic hedges to hedge securities in our trading portfolio, when hedge accounting is not permitted or hedge effectiveness is not achievable.

*Managing Credit Risk on Derivative Agreements*

*Over-the-counter (bilateral) Derivative Transactions:* We are subject to credit risk due to the risk of nonperformance by counterparties to our derivative agreements. For bilateral derivative agreements, the degree of counterparty risk depends on the negotiated provisions of such agreements to mitigate such risk, including, for example, terms related to master netting arrangements, collateral requirements and other credit enhancements. We manage counterparty credit risk through credit analysis, collateral requirements and adherence to the requirements set forth in our policies and FHFA regulations. We require collateral agreements on all over-the-counter derivatives.

As of March 31, 2024, based on credit analyses and collateral requirements, we have not recorded a credit loss on our over-the-counter derivative agreements. See **Note 15 - Fair Value** to the financial statements in our 2023 Form 10-K for discussion regarding our fair value methodology for over-the-counter derivative assets and liabilities, including an evaluation of the potential for the fair value of these instruments to be affected by counterparty credit risk.

Our bilateral derivative transactions are subject to variation margin requirements and are fully collateralized with a zero unsecured threshold. We pledged no investment securities for variation margin on our bilateral derivative transactions (that can be sold or repledged by our counterparty) as of March 31, 2024.

**Notes to Condensed Financial Statements - (Unaudited)**  
**(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)**

Bilateral derivative transactions executed on or after September 1, 2022, are subject to two-way initial margin requirements if our aggregate uncleared derivative transaction exposure to a counterparty exceeds a specified threshold. The initial margin is required to be held at a third party custodian and does not change ownership. Rather, the party in respect of which the initial margin has been posted to a third party custodian will have a security interest in the amount of initial margin required to be posted and can only take ownership upon the occurrence of certain events, including an event of default due to bankruptcy, insolvency, or similar proceeding. As of March 31, 2024, we pledged and/or received initial margin with certain bilateral derivative counterparties.

*Cleared Derivative Transactions:* Cleared derivative transactions are subject to variation and initial margin requirements established by the DCO and its clearing members. Variation margin payments are characterized as settlement of a derivative's mark-to-market exposure and not as collateral against the derivative's mark-to-market exposure. See **Note 1 - Background and Basis of Presentation** and **Note 2 - Summary of Significant Accounting Policies** to the financial statements in our 2023 Form 10-K for further discussion. We post our initial margin collateral payments and make variation margin settlement payments through our FCMs, on behalf of the DCO, which could expose us to institutional credit risk in the event that the FCMs or the DCO fail to meet their obligations. Clearing derivatives through a DCO mitigates counterparty credit risk exposure because the DCO is substituted for individual counterparties and variation margin settlement payments are made daily through the FCMs for changes in the value of cleared derivatives. The DCO determines initial margin requirements for cleared derivatives. We pledged \$837 million of investment securities (that can be sold or repledged) as part of our initial margin related to cleared derivative transactions at March 31, 2024. Additionally, an FCM may require additional initial margin to be posted based on credit considerations, including but not limited to, if our credit rating downgrades. We had no requirement to post additional initial margin by our FCMs at March 31, 2024.

The following table presents details on the notional amounts, and cleared and bilateral derivative assets and liabilities on our **Condensed Statements of Condition**. The netting adjustment amount includes cash collateral (either received or paid by us) and related accrued interest in cases where we have a legal right, by contract (e.g., master netting agreement) or otherwise, to offset cash flow obligations between us and our counterparty into a single net payable or receivable.

**Fair Value Hedges**

The following table presents our fair value hedging results by the type of hedged item. We had no net gain or loss on hedged firm commitments that no longer qualified as a fair value hedge. Changes in the fair value of the derivative and the hedged item attributable to the hedged risk for designated fair value hedges are recorded in net interest income in the same line as the earnings effect of the hedged item. Gains (losses) on derivatives include unrealized changes in fair value, as well as net interest settlements. The line for Other relates to discontinued closed fair value hedges on MPF Loans held for portfolio that are being amortized over the remaining life of the loans. As of March 31, 2024 we did not have any active fair value hedges on our MPF Loans.

**Cash Flow Hedges**

For cash flow hedges, the entire change in the fair value of the hedging instrument is recorded in AOCI and reclassified into earnings (net interest income) as the hedged item affects earnings. Hedge effectiveness testing is performed to determine whether the hedge qualifies for hedge accounting.

We are exposed to the variability in the total net proceeds received from forecasted zero-coupon discount note or SOFR-indexed bond issuances, which is attributable to changes in the benchmark interest rate. As a result, we enter into cash flow hedge relationships utilizing derivative agreements to hedge the total net proceeds received from our "rolling" forecasted zero-coupon discount note or SOFR-indexed bond issuances attributable to changes in the benchmark interest rate. The maximum length of time over which we are hedging this exposure is 6 years. We reclassify amounts in AOCI into our **Condensed Statements of Income** in the same periods during which the hedged forecasted transaction affects our earnings. We had no discontinued cash flow hedges for the periods presented. There were no deferred net gains (losses) on derivative instruments in AOCI that are expected to be reclassified to earnings during the next twelve months as of March 31, 2024.

The following table presents our cash flow hedging results by type of hedged item. Additionally, the table indicates where cash flow hedging results are classified in our **Condensed Statements of Income**. In this regard, the **Amount Reclassified from AOCI into Net Interest Income** column below includes the following:

- The amortization of closed cash flow hedging adjustments, which are reclassified from AOCI into the interest income/expense line item of the respective hedged item type.
- The effect of net interest settlements attributable to open derivative hedging instruments, which are initially recorded in AOCI and are reclassified to the interest income/expense line item of the respective hedged item type.

**Note 10 – Consolidated Obligations**

The FHLBs issue consolidated obligations through the Office of Finance as their agent. Consolidated obligations consist of discount notes and consolidated obligation bonds. Consolidated obligation discount notes are issued to raise short-term funds, are issued at less than their face amount and redeemed at par value when they mature. The maturity of consolidated obligation bonds may range from less than one year to over 20 years, but they are not subject to any statutory or regulatory limits on maturity.

The following table presents our consolidated obligation discount notes for which we are the primary obligor. All are due in one year or less.

**Note 11 – Capital and Mandatorily Redeemable Capital Stock (MRCS)**

Under our Capital Plan our stock consists of two sub-classes of stock, Class B1 activity stock and Class B2 membership stock (together, Class B stock), both with a par value of \$100 and redeemable on five years' written notice, subject to certain conditions. Under the Capital Plan, each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. All stock that supports a member's activity stock requirement with the Bank is classified as Class B1 activity stock. Any additional amount of stock necessary for the total amount of Class B stock held to equal a member's minimum investment amount will be classified as Class B2 membership stock. Members purchase Class B2 membership stock to satisfy their membership stock requirement with the Bank. Stock held in excess of a member's minimum investment requirement is classified as Class B2 excess capital stock. See **Note 12 – Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements in our 2023 Form 10-K for further information on our capital stock and MRCS.

**Minimum Capital Requirements**

For details on our minimum capital requirements, including how the ratios below were calculated, see **Minimum Capital Requirements** in **Note 12 – Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements in our 2023 Form 10-K. We complied with our minimum regulatory capital requirements as shown below.

As of	March 31, 2024		December 31, 2023	
	Requirement	Actual	Requirement	Actual
Total regulatory capital	\$ 5,051	\$ 8,334	\$ 4,735	\$ 8,339
Total regulatory capital ratio	4.00 %	6.60 %	4.00 %	7.04 %
Leverage capital	\$ 6,314	\$ 12,502	\$ 5,919	\$ 12,508
Leverage capital ratio	5.00 %	9.90 %	5.00 %	10.57 %
Risk-based capital	\$ 1,995	\$ 8,334	\$ 2,199	\$ 8,339

Total regulatory capital and leverage capital includes MRCS but does not include AOCI. Under the FHFA regulation on capital classifications and critical capital levels for the FHLBs, we are adequately capitalized.

Additionally, an FHFA Advisory Bulletin sets forth guidance for each FHLB to maintain a ratio of at least two percent of capital stock to total assets. In accordance with this guidance, the FHFA considers the proportion of capital stock to assets, measured on a daily average basis at month end, when assessing each FHLB's capital management practices.

*Capital Concentration*

The following member(s) (including any successor) had regulatory capital stock exceeding 10% of our total regulatory capital stock outstanding (which includes MRCS) as of March 31, 2024.

As of March 31, 2024	Regulatory Capital Stock Outstanding	% of Total Outstanding	Amount of Which is Classified as a Liability (MRCS)
The Northern Trust Company	\$ 343	10.6 %	\$ —

**Repurchase of Excess Capital Stock**

Members may request repurchases of excess stock on any business day. Additionally, on a monthly basis, the Bank repurchases excess capital stock held by each member or former member that exceeds certain limits set by the Bank. All repurchases of excess capital stock, including any future monthly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices.

**(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)**

**Dividends**

Our ability to pay dividends is subject to the FHLB Act and FHFA regulations. On May 3, 2024 our Board of Directors declared a 9.00% dividend (annualized) for Class B1 activity stock and a 5.125% dividend (annualized) for Class B2 membership stock based on our preliminary financial results for the first quarter of 2024. This dividend totaled \$72 million (recorded as \$70 million dividends on capital stock and \$2 million interest expense on mandatorily redeemable capital stock) and is scheduled for payment on May 15, 2024. Any future dividend payment remains subject to declaration by the Board and will depend on future operating results, our Retained Earnings and Dividend Policy and any other factors the Board determines to be relevant.

**Note 13 – Fair Value**

The following table is a summary of the fair value estimates and related levels in the hierarchy. The carrying amounts are per the **Condensed Statements of Condition**. Fair value estimates represent the exit prices that we would receive to sell assets or pay to transfer liabilities in an orderly transaction with market participants at the measurement date. They do not represent an estimate of our overall market value as a going concern, as they do not take into account future business opportunities or profitability of assets and liabilities. We measure instrument-specific credit risk attributable to our consolidated obligations based on our nonperformance risk, which includes the credit risk associated with the joint and several liability of other FHLBs (see **Note 16 - Commitments and Contingencies** in our 2023 Form 10-K). As a result, we did not recognize any instrument-specific credit risk attributable to our consolidated obligations that are carried at fair value. See **Note 2 - Summary of Significant Accounting Policies** in our 2023 Form 10-K for our fair value policies and **Note 15 - Fair Value** in our 2023 Form 10-K for our valuation techniques and significant inputs. See **Note 9 - Derivatives and Hedging Activities** for more information on the Netting and Cash Collateral amounts. The net carrying amount in the below table is net of any allowance for credit losses.

**Fair Value Option**

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. Financial instruments for which we elected the fair value option along with their related fair value are shown on our **Condensed Statements of Condition**. Refer to **Note 2 – Summary of Significant Accounting Policies** to the financial statements in our 2023 Form 10-K for further details.

The following table presents the gains (losses) in fair values of financial assets and liabilities carried at fair value under the fair value option, which are recognized in noninterest income - instruments held under the fair value option in our **Condensed Statements of Income**.

**Note 15 – Transactions with Related Parties and Other FHLBs**

We define related parties as either members whose officers or directors serve on our Board of Directors, or members that control more than 10% of our total voting interests. We did not have any members that controlled more than 10% of our total voting interests for the periods presented in these condensed financial statements.

In the normal course of business, we may extend credit to or enter into other transactions with a related party. These transactions are done at market terms that are no more favorable than the terms of comparable transactions with other members who are not considered related parties.

*Members*

The following table summarizes material balances we had with our members who are related parties as defined above (including their affiliates) as of the dates presented. The related net income impacts to our **Condensed Statements of Income** were not material.

As of	March 31, 2024	December 31, 2023
Assets - Advances	\$ 463	\$ 595
Liabilities - Deposits	5	5
Equity - Capital Stock	27	28

*Other FHLBs*

From time to time, we may loan to, or borrow from, other FHLBs. These transactions are done at market terms that are no more favorable than the terms of comparable transactions with other counterparties. These transactions are overnight, maturing the following business day.

In addition, we provide programmatic and operational support in our role as the administrator of the MPF Program on behalf of the other MPF Banks for which we receive a membership and volume-based administration fee.

Material transactions with other FHLBs are identified on the face of our condensed financial statements.

### **Forward-Looking Information**

Statements contained in this report, including statements describing the plans, objectives, projections, estimates, strategies, or future predictions or commitments of the Bank, statements of belief, any projections or guidance on dividends or other financial items, or any statements of assumptions underlying the foregoing, may be “forward-looking statements.” These statements may use forward-looking terminology, such as “anticipates,” “believes,” “expects,” “could,” “plans,” “estimates,” “may,” “should,” “will,” their negatives, or other variations of these terms. We caution that, by their nature, forward-looking statements involve risks and uncertainties related to our operations and business and regulatory environment, all of which are difficult to predict and many of which are beyond our control. These risks and uncertainties could cause actual results to differ materially from those expressed or implied in these forward-looking statements and could affect the extent to which a particular objective, projection, estimate, or prediction is realized. As a result, undue reliance should not be placed on such statements.

These forward-looking statements involve risks and uncertainties including, but not limited to, the following:

- political events, including legislative, regulatory, judicial, or other developments that affect us, our members, our counterparties and/or investors in consolidated obligations, including, among other things, changes in perception, guidance, regulation, and/or legislation relating to the FHFA’s Review and Analysis of the Federal Home Loan Bank System “FHLBank System at 100: Focusing on the Future” report, housing finance, the FHLBs, or GSE reform; changes in the Presidential Administration and the Congress; changes in our regulator or changes affecting our regulator and changes in the FHLB Act or applicable regulations; and the potential designation of us as a nonbank financial company for supervision by the Federal Reserve;
- general economic and market conditions, including the timing and volume of market activity, recession, prolonged inflation, unemployment rates, housing prices, the condition of the mortgage and housing markets, increased delinquencies and/or loss rates on mortgages, prolonged or delayed foreclosure processes, and the effects on, among other things, mortgage-backed securities; disruptions in the credit and debt markets and the effect on our members, future funding costs, sources, and availability of funds; volatility resulting from the effects of, and changes in, various monetary or fiscal policies and regulations or programs, such as those determined by the Federal Reserve Board and Federal Deposit Insurance Corporation; impacts from various measures to stimulate the economy and help borrowers refinance home mortgages; the impact of the occurrence of a major natural or other disaster, a pandemic or other disruptive event; the impact of climate change; the impact of geopolitical uncertainties or conflicts;
- the loss of or changes in business activities with significant members; changes in the demand by our members for advances, the impact of pricing increases, and the availability of other sources of funding for our members, such as deposits;
- regulatory limits on our investments;
- the impact of new business strategies; our ability to successfully maintain our balance sheet and cost infrastructure at an appropriate composition and size scaled to member demand; our ability to execute our business model, implement business process improvements and scale our size to our members’ borrowing needs; the extent to which our members use our advances as part of their core financing rather than just as a back-up source of liquidity; and our ability to implement product enhancements and new products and generate enough volume in new products to cover our costs related to developing such products;
- the extent to which changes in our current capital stock requirements and/or our ability to continue to offer the Reduced Capitalization Advance Program (RCAP) for certain future advance borrowings, our ability to continue to pay enhanced dividends on our activity stock, our ability to maintain current levels of dividends, our ability to meet dividend guidance, and any amendments to our capital plan, impact Bank product usage and activity with members;
- our ability to meet required conditions to repurchase and redeem capital stock from our members (including maintaining compliance with our minimum regulatory capital requirements and determining that our financial condition is sound enough to support such repurchases), the amount and timing of such repurchases or redemptions, any changes in our repurchase processes, and our ability to maintain compliance with regulatory and statutory requirements relating to our dividend payments;
- volatility of market prices, rates, and indices, or other factors, such as natural disasters, that could affect the value of our investments or collateral; changes in the value or liquidity of collateral securing advances to our members;

- changes in the value of and risks associated with our investments in mortgage loans, mortgage backed securities and the related credit enhancement protections;
- changes in our ability or intent to hold mortgage backed securities to maturity;
- changes in mortgage interest rates and prepayment speeds on mortgage assets;
- membership changes, including the loss of members through mergers and consolidations or as a consequence of regulatory requirements or otherwise; changes in the financial health of our members, including the resolution of some members; risks related to expanding our membership to include more institutions with regulators and resolution processes with which we have less experience;
- increased reliance on short-term funding and changes in investor demand and capacity for consolidated obligations and/or the terms of interest rate derivatives and similar agreements, including changes in the relative attractiveness of consolidated obligations as compared to other investment opportunities; changes in our cost of funds due to concerns over U.S. fiscal policy, and any related rating agency actions impacting FHLB consolidated obligations;
- regulatory changes to FHLB membership requirements, capital requirements, MPF Program requirements, and liquidity requirements by the FHFA, and increased guidance from the FHFA impacting our balance sheet management, product structures, and collateral practices;
- the ability of each of the other FHLBs to repay the principal and interest on consolidated obligations for which it is the primary obligor and with respect to which we have joint and several liability;
- the pace of technological change and our ability to develop and support technology and information systems, including our ability to protect the security of our information systems and manage any failures, interruptions or breaches in our information systems or technology services provided to us through third party vendors;
- our ability to recruit and retain qualified personnel;
- the impact of new material accounting standards and the application of accounting rules, including the impact of regulatory guidance on our application of such standards and rules;
- the volatility of reported results due to changes in the fair value of certain assets and liabilities;
- our ability to identify, manage, mitigate, and/or remedy internal control weaknesses and other operational risks; and
- the reliability of our projections, assumptions, and models on our future financial performance and condition, including dividend projections.

For a more detailed discussion of the risk factors applicable to us, see **Risk Factors** starting on page 21 in our 2023 Form 10-K.

## **Executive Summary**

### **First Quarter 2024 Financial Highlights**

- Advances outstanding decreased to \$59.5 billion at March 31, 2024, compared to \$65.3 billion at December 31, 2023, primarily attributable to depository members experiencing less funding needs on their balance sheets along with reduced loan demand which resulted in paydowns.
- MPF Loans held in portfolio increased to \$11.7 billion at March 31, 2024, compared to \$11.4 billion at December 31, 2023, primarily attributable to new acquisition volume that outpaced paydown and maturity activity.
- Total investment securities decreased to \$25.6 billion at March 31, 2024, compared to \$26.4 billion at December 31, 2023, primarily attributable to a reduction in investment in SBA securities, due to securities that matured and were not replaced.
- Total liquid assets increased to \$28.8 billion at March 31, 2024, compared to \$14.5 billion at December 31, 2023. We intend to maintain a sufficient pool of liquidity to support anticipated member demand for advances and letters of credit.
- Total assets increased to \$126.3 billion as of March 31, 2024, compared to \$118.4 billion as of December 31, 2023, with the change primarily attributable to an increase in our liquidity portfolio.
- Letters of credit commitments remained steady at \$12.8 billion at March 31, 2024, compared to \$12.6 billion at December 31, 2023.
- We recorded net income of \$182 million in the first quarter of 2024, up \$39 million compared to the first quarter of 2023. The increase was primarily due to increased returns on our investments and advances portfolio due to higher interest rates.
- In the first quarter of 2024, noninterest income (loss) was \$24 million, an increase of \$28 million when compared to a \$(4) million loss for the first quarter of 2023. Gains from derivatives used to hedge our market risk exposure were the primary driver of this increase.
- As of March 31, 2024, we remained in compliance with all of our regulatory capital requirements.

## **Summary and Outlook**

### *First Quarter 2024 Dividends and Dividend Guidance*

On May 3, 2024, the Board of Directors declared a dividend of 9% (annualized) for Class B1 activity stock and a dividend of 5.125% (annualized) for Class B2 membership stock based on preliminary financial results for the first quarter of 2024. The dividend for the first quarter of 2024 will be paid by crediting members' accounts on May 15, 2024. The Bank pays a higher dividend per share on activity stock compared to membership stock to recognize members' support of the cooperative through the use of our products. We expect to maintain a dividend of at least 9% (annualized) for Class B1 activity stock for the second and third quarter of 2024, based on current projections and assumptions regarding our financial condition. We are providing this information to assist members in planning their activity with us. Any future dividend payments remain subject to determination and declaration by our Board of Directors and may be impacted by further changes in financial or economic conditions, regulatory and statutory limitations, and any other relevant factors.

### *Ongoing Commitment to Housing and Community Development*

As of the end of the first quarter of 2024, the Bank had committed over \$110 million to affordable housing and community development initiatives for 2024. We have allocated nearly \$49 million toward our annual Affordable Housing Program (AHP) General Fund. Additionally, the Bank doubled the maximum per-project subsidy to \$2 million in 2024 to increase the financial impact for future affordable housing projects and developments.

The Bank opened its Downpayment Plus<sup>®</sup> (DPP<sup>®</sup>) grant program in January 2024 with a budget of \$39 million for 2024 and a new per member limit of \$1 million annually, representing a nearly 43% increase over the 2023 limit of \$700,000. This program allows participating members to help their low income-eligible borrowers with down payment and closing costs of up to \$10,000.

Three Community First<sup>®</sup> grant programs enter their third year in 2024 after being created in response to critical needs of members and communities across Illinois and Wisconsin—the Diverse Developer Initiative, Housing Counseling Resource Program and Accelerate Grants for Small Business. We have committed more than \$25 million to these programs in 2024 to target affordable housing development, access to financial education and funding for small businesses.

### **Critical Accounting Estimates**

There have been no significant changes to our critical accounting estimates subsequent to December 31, 2023.

### **Results of Operations**

#### **Net Interest Income**

Net interest income is the difference between the amount we recognize into interest income on our interest-earning assets and the amount we recognize into interest expense on our interest-bearing liabilities. These amounts were determined in accordance with GAAP and were based on the underlying contractual interest rate terms of our interest-earning assets and interest-bearing liabilities as well as the following items:

- Amortization of premiums;
- Accretion of discounts;
- Hedge ineffectiveness, which represents the difference between changes in the fair value of the derivative and the hedged item attributable to the hedged risk, is recognized into either interest income or interest expense, whichever is appropriate. For cash flow hedges, recognition occurs only when amounts are reclassified out of accumulated other comprehensive income (loss). Such recognition occurs when earnings are affected by the hedged item;
- Net interest paid or received on interest rate swaps that are accounted for as fair value or cash flow hedges;
- Amortization of fair value and cash flow closed hedge adjustments;
- Advance and investment prepayment fees; and
- MPF credit enhancement income payments.

The following table presents the increase or decrease in interest income and expense due to volume or rate variances. The calculation of these components includes the following considerations:

- *Average Balance:* Average balances are calculated using daily balances. Amortized cost is used to compute the average balances for most of our financial instruments, including MPF Loans held in portfolio (including those that are on nonaccrual status) and available-for-sale debt securities. Fair value is used to compute average balances for our trading debt securities and financial instruments carried at fair value under the fair value option.
- *Total Interest:* Total interest includes the net interest income components, as discussed above, applicable to our interest-earning assets and interest-bearing liabilities.
- *Yield/Rate:* Effective yields/rates are based on total interest and average balances as defined above. Yields/rates are calculated on an annualized basis. The calculation of the yield on our available-for-sale securities does not give effect to changes in fair value that are reflected as a component of AOCI.
- The change in volume is calculated as the change in average balance multiplied by the current year yield. The change in rate is calculated as the change in yield multiplied by the prior year average balance. Any changes due to the combined volume/rate variance have been allocated to volume.

The following analysis and comparisons apply to the periods presented in the above table unless otherwise indicated.

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

- Interest income from investment debt securities increased primarily due to increased volume. To a lesser extent, higher market interest rates in 2024 compared to 2023 also contributed to this increase in interest income.
- Interest income from advances increased primarily due to higher market interest rates in 2024 compared to 2023, despite a decline in volume due to advances maturing in 2023 with a former captive insurance company member.
- Interest income from MPF Loans held in portfolio increased primarily due to the higher mortgage rate environment increasing the yield earned on new loan originations in 2024 compared to 2023. Secondly, new acquisition volume that outpaced paydown and maturity activity also contributed to this increase in interest income.
- Interest income from overnight federal funds sold decreased primarily due to a decline in volume. While overall interest income on our overnight federal funds sold decreased, the interest rate on our overnight federal funds sold increased due to higher market interest rates in 2024 compared to 2023.
- Interest income from securities purchased under agreements to resell increased primarily due to increased volume and higher market interest rates in 2024 compared to 2023.
- Interest income from interest-bearing deposits was comparable to the prior period in 2023, despite a decline in volume.
- Interest expense on our shorter-termed consolidated obligation discount notes decreased as we paid down our discount notes in 2023 and increased our use of consolidated obligation bonds due to advantageous funding opportunities on our longer-termed debt. While overall interest expense on our discount notes decreased, the interest rate paid on our discount notes increased due to higher market interest rates in 2024 compared to 2023.
- Interest expense on our longer-termed consolidated obligation bonds increased primarily due to increased volume. To a lesser extent, higher market interest rates in 2024 compared to 2023 also contributed to this increase in interest expense.
- For details of the effect our fair value and cash flow hedge activities had on our net interest income see the **Total Net Effect Gain (Loss) of Hedging Activities** table on page 41.

#### *Trading Securities, Derivatives and Hedging Activities, and Instruments Held Under the Fair Value Option*

Gains from our derivatives and hedging activities were the primary driver of the increase in noninterest income. The following table details the effect of hedging transactions recorded in the various line items in our **Condensed Statements of Income**. Hedge ineffectiveness on hedges qualifying for hedge accounting are recorded in net interest income rather than recorded in derivatives, as noted in the table below.

*MPF fees (including from other FHLBs)*

A majority of MPF fees are from other FHLBs that pay us a fixed membership fee to participate in the MPF Program and a volume-based administration fee for us to provide services related to MPF Loans carried on their balance sheets. MPF fees also include income from other third party off-balance sheet MPF Loan products and other related administration fees. These administration and membership fees are designed to compensate us for the expenses we incur to administer the program. MPF fees for the three months ended March 31, 2024 were comparable to the comparable period in 2023.

*Other, net*

Other, net includes fee income we earn from member standby letters of credit products.

**Noninterest Expense**

<b>Noninterest expense</b>	<b>\$ 69</b>	<b>\$ 59</b>

The following analysis and comparisons apply to the periods presented in the above table.

Compensation and benefits for the three months ended March 31, 2024 were comparable to the prior period in 2023. We had 479 employees as of March 31, 2024, compared to 499 employees as of March 31, 2023.

Nonpayroll operating expenses increased as we continued our planned investment in information technology, specifically applications, infrastructure, and resiliency.

Recognizing that additional voluntary Community Investment contributions would be beneficial in meeting community needs in affordable housing, as well as business and community development, our Board of Directors approved, and management has allocated and begun to deploy, additional discretionary funds in 2024. For more information on these voluntary contributions, see **Executive Summary** on page 36.

Federal Housing Finance Agency and Office of Finance expenses consist of our share of the funding for the FHFA, our regulator, and the Office of Finance, which manages the consolidated obligation debt issuances of the FHLBs.

As noted in **Noninterest Income** on page 41, we earn MPF fees from the MPF Program, a majority of which are from other FHLBs, but also include income from other third party investors. These fees are designed to compensate us for the expenses we incur to administer the program. Our expenses relating to the MPF fees earned are included in the relevant line items in the noninterest expense table shown above. The following table summarizes MPF related fees and expenses.

	Three months ended March 31,	
	2024	2023
MPF fees earned	\$ 9	\$ 8
Expenses related to MPF fees earned	9	8

#### Assessments

We record the AHP assessment expense at a rate of 10% of income before assessments, excluding interest expense on MRCS. See **Note 11 - Affordable Housing Program** to the financial statements in our 2023 Form 10-K for further details.

**Other Comprehensive Income (Loss)**

	Three months ended March 31,		Balance remaining in AOCI as of
	2024	2023	March 31, 2024
Net unrealized gain (loss) available-for-sale debt securities	\$ 216	\$ (162)	\$ 18
Net unrealized gain (loss) cash flow hedges	7	(17)	79
Postretirement plans	(2)	21	8
<b>Other comprehensive income (loss)</b>	<b>\$ 221</b>	<b>\$ (158)</b>	<b>\$ 105</b>

The following analysis and comparisons apply to the periods presented in the above table.

*Net unrealized gain (loss) on available-for-sale debt securities*

The net unrealized gain on our AFS portfolio for 2024 was primarily due to spreads to swaps tightening in 2024. As these securities approach maturity, we expect the net unrealized gains in our AOCI as of March 31, 2024 to reverse over the remaining life of these securities (since we expect to receive par value at maturity).

*Net unrealized gain (loss) on cash flow hedges*

The net unrealized gain on cash flow hedges for 2024 was primarily driven by higher market interest rates in 2024.

*Postretirement plans*

The loss recorded for 2024 was primarily due to an actuarial adjustment resulting from a decrease in the discount rate used to calculate postretirement benefits.

We did not recognize any instrument-specific credit risk in our **Condensed Statements of Comprehensive Income** as of March 31, 2024 due to our credit standing. For further details on the activity in our Other Comprehensive Income (Loss) see **Note 12 - Accumulated Other Comprehensive Income (Loss)** to the condensed financial statements.

The following is an analysis of the above table and comparisons apply to March 31, 2024 compared to December 31, 2023.

#### Cash and due from banks, interest-bearing deposits, federal funds sold, and securities purchased under agreements to resell

Amounts held in these typically overnight accounts will vary each day based on the following:

- Interest rate spreads between federal funds sold and securities purchased under agreements to resell and our debt;
- Liquidity requirements;
- Counterparties available; and
- Collateral availability on securities purchased under agreements to resell.

In the first quarter of 2024, we maintained a sufficient pool of liquidity to support anticipated member demand for advances and letters of credit.

#### Investment Debt Securities

Investment debt securities decreased at the end of the first quarter of 2024 compared to year end 2023 with the change primarily attributable to a reduction in investment in SBA securities, due to securities that matured and were not replaced.

#### Advances

Advance balances decreased at the end of the first quarter of 2024 compared to year end 2023. This was primarily attributable to depository members experiencing less funding needs on their balance sheets along with reduced loan demand which resulted in paydowns. Advance balances will vary based primarily on member demand or need for wholesale funding and the underlying cost of the advance to the member. It is possible that member demand for our advances could decline in future periods should their funding needs change, or to the extent they elect alternative funding resources. In addition, as our remaining advances with our former captive insurance company member continue to mature, our total advance levels may decrease. For a discussion of risks relating to our former captive insurance company member see **Risk Factors** starting on page 21 in our 2023 Form 10-K. For details on our advances with our former captive insurance company member, see **Note 6 - Advances**.

**MPF Loans Held in Portfolio, Net of Allowance for Credit Losses**

MPF Loans held in portfolio increased at the end of the first quarter of 2024 compared to year end 2023. This was primarily attributable to new acquisition volume that outpaced paydown and maturity activity. In addition to our MPF Loans held in portfolio, we have MPF off-balance sheet products, where we buy and concurrently resell MPF Loans to Fannie Mae or pool and securitize them into Ginnie Mae MBS.

## Liquidity, Funding, & Capital Resources

### Liquidity

For the period ending March 31, 2024, we maintained a liquidity position in accordance with FHFA regulations and guidance, which may be amended from time to time, and policies established by our Board of Directors. Based upon our excess liquidity position described below, we anticipate remaining in compliance with our current liquidity requirements. See **Liquidity, Funding, & Capital Resources** on page 51 in our 2023 Form 10-K for a detailed description of our current liquidity requirements. We use different measures of liquidity as follows:

Overnight Liquidity – Our policy requires us to maintain overnight liquid assets at least equal to 3.5% of total assets (or \$4.4 billion). As of March 31, 2024, our overnight liquidity was \$32.7 billion or 26% of total assets, giving us an excess overnight liquidity of \$28.3 billion.

Deposit Coverage – To support our member deposits, FHFA regulations require us to have an amount equal to the current deposits received from our members invested in obligations of the U.S. Government, deposits in eligible banks or trust companies, or advances with maturities not exceeding five years. As of March 31, 2024, we had excess liquidity of \$55.7 billion to support member deposits.

Liquidity Reserves – As discussed on page 51 in the **Liquidity, Funding, & Capital Resources** section in our 2023 Form 10-K, the FHFA advisory bulletin on FHLB liquidity (the "Liquidity AB") requires that: (i) we hold positive cash flow assuming no access to the capital markets for a period of between ten to thirty calendar days and assuming renewal of all maturing advances, and (ii) we maintain liquidity reserves between one and 20 percent of our outstanding letter of credit commitments.

In an effort to satisfy our current liquidity requirements, we generally maintain increased balances in short-term or liquid investments. Depending on market conditions, the Liquidity AB may require the Bank to hold an additional amount of liquid assets, which could reduce the Bank's ability to invest in higher-yielding assets, and may in turn negatively impact net interest income. To the extent that the Bank adjusts pricing for its short-term advances and letters of credit, these products may become less competitive, which may adversely affect advance and capital stock levels as well as letters of credit levels. For additional discussion of how our liquidity requirements may impact our earnings, see **Risk Factors** on page 21 in our 2023 Form 10-K.

In addition, we fund certain shorter-term or overnight investments and advances with debt that has a maturity that extends beyond the maturities of the related investments or advances. The Liquidity AB provides guidance on maintaining appropriate funding gaps for three-month (-10% to -20%) and one-year (-25% to -35%) maturity horizons. Subject to market conditions, our cost of funding may increase if we are required to achieve the appropriate funding gap by using longer term funding, on which we generally pay higher interest than on our short-term funding.

We are sensitive to maintaining an appropriate liquidity and funding balance between our financial assets and liabilities, and we measure and monitor the risk of refunding such assets as liabilities mature (refunding risk). In measuring the level of assets requiring refunding, we take into account their contractual maturities, as further described in the notes to the condensed financial statements. In addition, we make certain assumptions about their expected cash flows. These assumptions include: calls for assets with such features, projected prepayments and scheduled amortizations for our MPF Loans held in portfolio, MBS and ABS investments.

## Funding

### *Conditions in Financial Markets*

The Federal Open Market Committee (FOMC) kept the target fed funds rate unchanged at a rate of 5.25-5.50% at both its January 2024 and March 2024 meetings. At the March 2024 meeting, the FOMC indicated a median expectation of three rate cuts in 2024; however they also increased their expectations for 2024 U.S. Gross Domestic Product (GDP) and Personal Consumption Expenditures Price Index growth rates. With the exception of the 1-month maturity, yields for U.S. Treasuries were higher for all points across the curve at the end of the first quarter of 2024 relative to the prevailing yields at the end of the fourth quarter of 2023. After months of temporary measures, in March 2024, the U.S. Congress passed a bill to fund the U.S. government through September 2024; however, historically, the threat of government shutdowns has not had a significant impact on the FHLBs' ability to issue debt at attractive levels.

According to the Department of Commerce, GDP increased in the fourth quarter of 2023 as a result of increases in consumer spending, state and local government spending, exports, nonresidential fixed investment, federal government spending and residential fixed investment. The U.S. stock market was higher at the end of the first quarter of 2024, with the Dow Jones Industrial Average at 39,807 points on March 31, 2024, versus 37,690 points on December 31, 2023.

We maintained ready access to funding throughout the first quarter of 2024.

### Condensed Statements of Cash Flows

#### Net cash flows from operating activities

Three months ended March 31,	2024	2023
<b>Net cash provided by (used in) operating activities</b>	<b>\$ 786</b>	<b>\$ 109</b>

In 2024, the majority of our operating cash inflows was related to cash received from clearinghouses to settle mark-to-market positions and net income. In 2023, the majority of our operating cash inflows were related to cash received from net income.

#### Net cash flows from investing activities with significant activity

Three months ended March 31,	2024	2023
Liquid assets consisting of interest-bearing deposits, federal funds sold, and securities purchased under agreements to resell	\$ (14,339)	\$ 5,023
Investment debt securities	610	(59)
Advances	5,500	(12,986)
MPF Loans held in portfolio	(316)	(19)
Other	(3)	(2)
<b>Net cash provided by (used in) investing activities</b>	<b>\$ (8,548)</b>	<b>\$ (8,043)</b>

Our investing activities consist predominantly of investments in liquid assets, investment debt securities, advances, and MPF Loans held in portfolio. The reasons for the changes in net cash provided by (used in) investing activities and changes in allocation within investing activities are discussed below for the three months ended March 31, unless otherwise stated.

- The cash flows relating to our liquid assets fluctuate depending on the needs of our members, our investing strategy, the economic environment, and/or regulatory requirements. We maintain a sufficient pool of liquidity to support anticipated member demand for advances and letters of credit.
- In 2024 our net cash inflows from investment debt securities was primarily attributable to a reduction in investment in SBA securities, due to securities that matured and were not replaced. In 2023 our net cash outflows from investment debt securities were primarily attributable to an increase in investment in GSE mortgage-backed securities.
- In 2024 our net cash inflows for advances was attributable to depository members experiencing less funding needs on their balance sheets along with reduced loan demand which resulted in paydowns. In 2023 our net cash outflows for advances were attributable to increased borrowing from our depository members, including in connection with the banking industry volatility that occurred in early March 2023.
- In 2024 and 2023 our net cash outflows for MPF Loans held in portfolio was due to new-acquisition volume that outpaced paydown and maturity activity.

*Net cash flows from financing activities with significant activity*

Three months ended March 31,	2024	2023
Consolidated obligation discount notes	\$ 9,884	\$ (8,581)
Consolidated obligation bonds	(1,999)	15,736
Other	(106)	783
<b>Net cash provided by (used in) financing activities</b>	<b>\$ 7,779</b>	<b>\$ 7,938</b>

Our financing activities primarily reflect cash flows related to issuing and repaying consolidated obligation bonds and discount notes. The change in net cash provided by (used in) financing activities and change in funding allocations are discussed below for the three months ended March 31, unless otherwise stated.

- In 2024 we paid down our bonds and increased our use of discount notes to align with advantageous funding opportunities. The increased borrowing on our discount notes reflects an increase in debt financing to match the overall increase in assets outstanding as discussed in investing activities above. In 2023 we paid down our discount notes and increased our use of bonds to align with advantageous funding opportunities. The increased borrowing on our bonds reflects an increase in debt financing to match the overall increase in assets (primarily advances) outstanding as discussed in investing activities above.
- In 2024 our net cash outflows for Other was primarily due to repurchases of our capital stock. In 2023 our net cash inflows for Other were primarily due to proceeds from issuance of our capital stock.

## Capital Resources

### *Capital Rules*

Under our amended and restated Capital Plan, effective May 3, 2021 (the Capital Plan), our stock consists of two sub-classes of stock, Class B1 stock and Class B2 stock (together, Class B stock), both with a par value of \$100 per share and redeemable on five years' written notice, subject to certain conditions. Under the Capital Plan, each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. All stock that supports a member's activity stock requirement with the Bank is classified as Class B1 activity stock. Any additional amount of stock necessary for the total amount of Class B stock held to equal a member's minimum investment amount will be classified as Class B2 membership stock. Members purchase Class B2 membership stock to satisfy their membership stock requirement with the Bank. Stock held in excess of a member's minimum investment requirement is classified as Class B2 excess capital stock. Any dividend declared on Class B1 activity stock must be greater than or equal to the dividend on Class B2 membership stock for the same period. The higher dividend paid on Class B1 activity stock since late 2013 acknowledges that members, through their utilization of Bank products, provide support to the entire cooperative.

Under the Capital Plan, each member's activity stock requirement is set at 4.5% for advances other than those borrowed under RCAP as further discussed below. The Capital Plan provides that the Board of Directors may periodically adjust members' activity stock requirement for advances between a range of 2% and 5% of a member's outstanding advances.

Additionally, for MPF on-balance sheet products (which includes MPF Original, MPF 125, MPF 35, and MPF Government loans), the activity stock requirement is 2% of the principal loan amount sold into master commitments opened or amended. Under the Capital Plan, the range within which our Board may adjust this requirement is between 0% and 5%. For letters of credit, the activity stock requirement is 0.10% of the notional amount of all new letters of credit issued, and all existing letters of credit renewed, extended or increased. Under the Capital Plan, the range for the letter of credit activity stock requirement is 0.10% to 2%.

Under the Capital Plan, each member's membership stock requirement is the greater of either \$10,000 or 0.40% of a member's mortgage assets. The Capital Plan provides that the Board may periodically adjust members' membership stock requirement between a range of 0.20% to 1% of a member's mortgage assets. A member's investment in membership stock is capped at \$5 million, subject to adjustment by the Board within a range between \$1 million and \$25 million.

Membership stock requirements are recalculated annually, whereas the activity stock requirement and any automatic conversion of Class B2 membership stock to Class B1 activity stock related to activity continue to apply on a daily basis.

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

We may only redeem or repurchase capital stock from a member if, following the redemption or repurchase, the member continues to meet its minimum investment requirement and we remain in compliance with our regulatory capital requirements as discussed in **Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the condensed financial statements. Members that withdraw from membership must wait at least five years after their membership was terminated and all of their capital stock was redeemed or repurchased before being readmitted to membership in any FHLB.

For details on our capital stock requirements under our capital plan for year-end 2023, see **Capital Resources** on page 58 in our 2023 Form 10-K. Under the terms of our Capital Plan, our Board of Directors is authorized to amend the Capital Plan, and the FHFA must approve all such amendments before they become effective.

For details on our minimum regulatory capital requirements see **Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the condensed financial statements in this Form 10-Q, and **Minimum Capital Requirements in Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements in our 2023 Form 10-K.

#### *Reduced Capitalization Advance Program*

RCAP allows members to borrow one or more advances with an activity stock requirement of only 2% for the life of the advance instead of the current 4.5% requirement under our Capital Plan's general provisions. At March 31, 2024, RCAP advances outstanding totaled \$11.7 billion to 91 members and former members. We may implement future programs for advances with a reduced activity stock requirement that may or may not have the same characteristics as current RCAP offerings.

#### **Repurchase of Excess Capital Stock**

Members may request repurchase of excess capital stock on any business day. Additionally, on a monthly basis, the Bank will repurchase excess capital stock held by each member or former member that exceeds certain thresholds set by the Bank. All repurchases of excess capital stock, including any future monthly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices. For details on the financial and capital thresholds relating to repurchases, see **Repurchase of Excess Capital Stock** on page 61 in our 2023 Form 10-K.

#### *Capital Amounts*

The following table reconciles our capital reported in our **Condensed Statements of Condition** to the amount of capital stock reported for regulatory purposes. MRCS is included in the calculation of the regulatory capital and leverage ratios but is recorded in liabilities in our **Condensed Statements of Condition**.

	March 31, 2024	December 31, 2023
Capital stock	\$ 3,166	\$ 3,277
Mandatorily redeemable capital stock (MRCS) recorded as a liability	83	83
<b>Regulatory capital stock</b>	<b>3,249</b>	3,360
Retained earnings	5,085	4,979
<b>Regulatory capital</b>	<b>\$ 8,334</b>	<b>\$ 8,339</b>
Capital stock	\$ 3,166	\$ 3,277
Retained earnings	5,085	4,979
Accumulated other comprehensive income (loss)	105	(116)
<b>GAAP capital</b>	<b>\$ 8,356</b>	<b>\$ 8,140</b>

Accumulated other comprehensive income (loss) in the above table consists of changes in market value of various balance sheet accounts where the change is not recorded in earnings but is instead recorded in equity capital as the income (loss) is not yet realized. For details on these changes please see **Note 12 - Accumulated Other Comprehensive Income (Loss)** to the condensed financial statements.

We may not pay dividends if we fail to satisfy our minimum capital and liquidity requirements under the FHLB Act and FHFA regulations. On May 3, 2024, our Board of Directors declared a 9.00% dividend (annualized) for Class B1 activity stock and a 5.125% dividend (annualized) for Class B2 membership stock based on our preliminary financial results for the first quarter of

**FHLBank**

2024. This dividend totaled \$72 million (recorded as \$70 million dividends on capital stock and \$2 million interest expense on mandatorily redeemable capital stock) and is scheduled for payment on May 15, 2024.

Although we continue to work to maintain our financial strength to support a reasonable dividend, any future dividend payment remains subject to declaration by our Board and will depend on future operating results, our Retained Earnings and Dividend Policy and any other factors the Board determines to be relevant. For further information on our **Retained Earnings and Dividend Policy**, see page 62 in our 2023 Form 10-K.

We continue to allocate 20% of our net income each quarter to a restricted retained earnings account in accordance with the Joint Capital Enhancement Agreement that we entered into with the other FHLBs, as further discussed in **Joint Capital Enhancement Agreement in Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements in our 2023 Form 10-K.

Additionally, an FHFA Advisory Bulletin sets forth guidance for each FHLB to maintain a ratio of at least two percent of capital stock to total assets. In accordance with this guidance, the FHFA considers the proportion of capital stock to assets, measured on a daily average basis at month end, when assessing each FHLB's capital management practices.

## Credit Risk Management

### *Managing Our Credit Risk Exposure Related to Member Credit Products*

Our credit risk rating system focuses primarily on our members' overall financial health and takes into account the member's asset quality, earnings, and capital position. For further information, please see **Credit Risk Management** starting on page 64 in our 2023 Form 10-K.

The following table presents the number of members and related credit outstanding to them by credit risk rating. Credit outstanding consists primarily of outstanding advances and letters of credit. MPF credit enhancement obligations, member derivative exposures, and other obligations make up the rest. Of the total credit outstanding, \$60.5 billion were advances (par value) and \$12.8 billion were letters of credit at March 31, 2024, compared to \$66.0 billion and \$12.6 billion at December 31, 2023.

Rating	March 31, 2024			December 31, 2023		
	Borrowing Members	Credit Outstanding	Total Collateral Value	Borrowing Members	Credit Outstanding	Total Collateral Value
1-3	516	\$ 71,342	\$ 170,081	516	\$ 77,291	\$ 167,023
4	11	2,084	2,573	10	1,453	1,916
5	6	81	123	8	77	135
Total	533	\$ 73,507	\$ 172,777	534	\$ 78,821	\$ 169,074

Members assigned a 4 rating in the above table were required to submit specific collateral listings and the members assigned a 5 rating were required to deliver collateral to us or to a third party custodian on our behalf.

### *MPF Loans and Related Exposures*

For details on our allowance for credit losses on MPF Loans, please see **Note 8 - Allowance for Credit Losses** to the condensed financial statements.

**Credit Risk Exposure** - Our credit risk exposure on conventional MPF Loans held in portfolio is the potential for financial loss due to borrower default and depreciation in the value of the real estate collateral securing the MPF Loan, offset by the borrower's equity, which represents the fair value of the underlying property in excess of the outstanding MPF Loan held in portfolio balance, our ability to recover losses from primary mortgage insurance, Recoverable CE Income, and the CE Amount which may include SMI. The PFI is required to pledge collateral to secure any portion of its CE Amount that is a direct obligation of the PFI. For further details see **Loss Structure for Credit Risk Sharing Products** on page 9 in our 2023 Form 10-K, and **Credit Risk Exposure** and **Setting Credit Enhancement Levels** starting on page 67 in our 2023 Form 10-K.

### Mortgage Repurchase Risk

We are exposed to mortgage repurchase risk in connection with our sale of MPF Loans to Fannie Mae under the MPF Xtra product and to Ginnie Mae for MPF Loans securitized in Ginnie Mae MBS if a loan eligibility requirement or other representation or warranty is breached. We may require the PFI from which we purchased the ineligible MPF Loan to repurchase that loan from us or to indemnify us for related losses, or request indemnification from the PFI's MPF Bank. Of these two products, our MPF Xtra product is the more popular, and during the three months ended March 31, 2024 and 2023, we purchased and concurrently delivered \$0.1 billion and \$0.1 billion in unpaid principal balance of these loans to Fannie Mae.

For additional details on our mortgage repurchase risk in connection with our sale of MPF Loans to third party investors and MPF Loans securitized into MBS when a loan eligibility requirement or other warranty is breached, see **Mortgage Repurchase Risk** on page 69 in our 2023 Form 10-K.

### *Investment Debt Securities*

We hold a variety of investment debt securities, mostly government backed or insured securities, and we believe these

investments are currently low risk. Except for an immaterial amount, all are rated at least AA and there were no material changes in the credit ratings of these securities since December 31, 2023. For further details see **Investment Debt Securities** on page 71 in our 2023 Form 10-K.

#### *Unsecured Short-Term Investments*

See **Unsecured Short-Term Investments** on page 73 in our 2023 Form 10-K for further details on our unsecured short-term investments as well as policies and procedures to limit and monitor our unsecured credit risk exposure.

The following table presents the credit ratings of our unsecured investment counterparties, organized by the domicile of the counterparty or, where the counterparty is a U.S. branch or agency office of a foreign commercial bank, by the domicile of the counterparty's parent. This table does not reflect the foreign sovereign government's credit rating. The ratings shown in the following table reflect the lowest long-term debt rating reported among the three largest Nationally Recognized Statistical Rating Organizations (NRSROs). FHFA regulations require the Bank to develop and assign internal credit ratings for its counterparties that do not rely exclusively on ratings reported by NRSROs. As such, the ratings shown in the following table are for presentation purposes only. The unsecured investment credit exposure presented in the table may not reflect the average or maximum exposure during the period as the table reflects only the balances at period end.

*Managing Our Credit Risk Exposure Related to Derivative Agreements*

See **Note 9 - Derivatives and Hedging Activities** to the condensed financial statements for a discussion of how we manage our credit risk exposure related to derivative agreements. We have credit exposure on net asset positions where we have not received adequate collateral from our counterparties. We also have credit exposure on net liability positions where we have pledged collateral in excess of our liability to a counterparty.

The following table presents our derivative positions where we have such credit exposures. The ratings shown in the following table reflect the lowest long-term debt rating reported among the three largest NRSROs. FHFA regulations require the Bank to develop and assign internal credit ratings for its counterparties that do not rely exclusively on ratings reported by NRSROs. As such, the ratings shown in the following table are for presentation purposes only. Noncash collateral pledged consists of initial margin we posted through our FCMs, on behalf of the DCOs for cleared derivatives and is included in our derivative positions with credit exposure. Noncash collateral pledged also consists of net initial margin exchanged on our bilateral derivatives, which for presentation purposes we have reported on a net basis. As of March 31, 2024, we had no material concentration of credit risk with any one bilateral derivative counterparty.

### **Legislative and Regulatory Developments**

Significant regulatory actions and developments are summarized below.

*FHFA's Review and Analysis of the FHLB System.* On November 7, 2023, the FHFA issued a written report titled "FHLBank System at 100: Focusing on the Future," presenting its review and analysis of the FHLB System and the actions and recommendations that it plans to pursue in service of its vision for the future of the FHLB System. The report focused on four broad themes: (1) the mission of the FHLB System; (2) the FHLB System as a stable and reliable source of liquidity; (3) housing and community development; and (4) FHLB System operational efficiency, structure, and governance. The FHFA expects to continue a multi-year collaborative effort with the FHLBs, FHLB member institutions, and other stakeholders to address the recommended actions in the report and has stated that it can implement some of the recommendations from the report through ongoing supervision, guidance, or rulemaking, as well as through statutory changes by proposing specific requests for Congressional action.

In April 2024, the FHFA provided an update on its plan to implement the report's recommendations and announced key priorities for 2024. Among others, these priorities include (1) clarifying the FHLB System mission; (2) aligning eligibility requirements for different types of FHLB members; (3) streamlining requirements related to the AHP; and (4) strengthening FHLB evaluation of member creditworthiness. The FHFA stated that it would maintain transparency and continue robust stakeholder engagement during the implementation process, including seeking input on FHLB mission achievement and members' connection to housing and community development.

The Bank continues to monitor the FHFA's efforts to implement the recommendations from the report, and we are not able to predict what actions will ultimately result, the timing or extent of any actions or changes, or the ultimate effect on the Bank or the FHLB System in the future. We plan to continue to engage with the FHFA and other stakeholders in an effort to ensure that the FHLB System remains well positioned to serve our members and their communities. For a further discussion of the report and related risks, see the **Legislative and Regulatory Developments** and **Risk Factors** sections of our 2023 Form 10-K.

*SEC Final Rule on the Enhancement and Standardization of Climate-Related Disclosures for Investors.* On March 6, 2024, the SEC adopted a final rule that will require registrants to disclose certain climate-related information in their annual reports (the Climate Disclosure Rules). Following several petitions seeking judicial review of the Climate Disclosure Rules, on April 4, 2024, the SEC exercised its discretion to stay the Climate Disclosure Rules pending the completion of judicial review to avoid regulatory uncertainty for registrants subject to rules' requirements during the pendency of the challenges to their validity.

As issued, the Climate Disclosure Rules will require disclosure of, among other things: material climate-related risks; activities to mitigate or adapt to such risks; information about a registrant's board of directors' oversight of climate-related risks and management's role in managing such risks; and information on any climate-related targets or goals that are material to the registrant's business, results of operations, or financial condition. In addition, certain disclosures related to severe weather events and other natural conditions will be required in a registrant's audited financial statements. The Bank will be subject to the requirements of the Climate Disclosure Rules applicable to the Bank beginning with its annual report for fiscal year 2027. The Bank continues to review the Climate Disclosure Rules and their impact on the Bank's financial condition and results of operations, including the possible effect on costs and complexities associated with its SEC reporting.

*FHFA Final Rule on Fair Lending, Fair Housing, and Equitable Housing Finance Plans.* On April 29, 2024, the FHFA released its final rule that specifies requirements related to the FHLBs' compliance with fair housing and fair lending laws and related regulations, including the Fair Housing Act and the Equal Credit Opportunity Act, and prohibitions on unfair or deceptive acts or practices under the Federal Trade Commission Act. The final rule (i) addresses the enforcement authority of the FHFA; (ii) articulates standards related to the board of directors' oversight of fair housing, fair lending, and principles of equitable housing; and (iii) requires each FHLB to annually report actions it voluntarily takes to address barriers to sustainable housing opportunities for underserved communities (Equitable Housing Report Requirements). The final rule will become effective 60 days after the date it is published in the Federal Register, except that the Equitable Housing Report Requirements will become effective on February 15, 2026. The Bank is continuing its review of the final rule and evaluating the impact it may have on the Bank and its operations.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our Asset/Liability Management Committee and its subcommittees provide oversight of our risk management practices and policies. This includes routine reporting to senior Bank management and the Board of Directors, as well as maintaining the Income and Market Value Risk Policy, which defines our interest rate risk limits. See **Item 7A. Quantitative and Qualitative Disclosures About Market Risk** on page 75 in our 2023 Form 10-K for further discussion on market risk.

The table below reflects the expected change in market value of equity for the stated increase or decrease in interest rates based on our models and related loss limit for each scenario established in the policy. For our down scenario shock analysis, the down shocks are constrained by scenarios provided by our regulator, which currently are limited so that shocked rates will not go negative but are subject to change. As a result, where applicable, we apply a floor to the down shock scenario at 10 bps. In the current rate environment, this floor setting was not triggered for any of the shock scenarios presented below.

Scenario as of	March 31, 2024		December 31, 2023	
	Change in Market Value of Equity	Loss Limit	Change in Market Value of Equity	Loss Limit
-200 bp	\$ 40	\$ (650)	\$ (112)	\$ (650)
-100 bp	44	(290)	(30)	(290)
-50 bp	28	(130)	(8)	(130)
-25 bp	15	(65)	(2)	(65)
+25 bp	(17)	(65)	(2)	(65)
+50 bp	(35)	(130)	(7)	(130)
+100 bp	(74)	(290)	(26)	(290)
+200 bp	(157)	(650)	(86)	(650)

### Measurement of Market Risk Exposure

To measure our exposure, we discount the cash flows generated from modeling the terms and conditions of all interest rate-sensitive securities using current interest rates to determine their fair values or spreads to the swap curve for securities where third party prices are used. This includes considering explicit and embedded options using a lattice model or Monte Carlo simulation. We estimate yield curve, option, and basis risk exposures by calculating the fair value change in relation to various parallel changes in interest rates, implied volatility, prepayment speeds, spreads to the swap curve and mortgage rates.

The table below summarizes our sensitivity to various interest rate risk exposures in terms of changes in market value.

	As of March 31, 2024	As of December 31, 2023
<b>Yield Curve Risk</b>	\$ 1	\$ 8
<b>Option Risk</b>		
Implied Volatility	(3)	(5)
Prepayment Speeds	1	—
<b>Basis Risk</b>		
Spread to Swap Curve	(9)	(3)

*Yield curve risk* – Change in market value for a one basis point parallel increase in the swap curve.

*Option risk (implied volatility)* – Change in market value for a one percent parallel increase in the swaption volatility.

*Option risk (prepayment speeds)* – Change in market value for a one percent increase in prepayment speeds.

*Basis risk (spread to swap curve)* – Change in market value for a one basis point parallel increase in the spread to the swap curve.

*Basis risk (mortgage spread)* – Change in market value for a one basis point increase in mortgage rates.

As of March 31, 2024, our sensitivity to changes in implied volatility using a lattice model and Monte Carlo simulation was \$(3) million, compared to \$(5) million at December 31, 2023. These sensitivities are limited in that they do not incorporate other risks, including but not limited to non-parallel changes in yield curves, prepayment speeds, and basis risk related to differences between the swap and the other curves. Option positions embedded in our mortgage assets and callable debt impact our yield curve risk profile, such that swap curve changes significantly greater than one basis point cannot be linearly interpolated from the table above.

Federal Home Loan Bank of Chicago

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Duration of equity is another measure to express interest rate sensitivity. We report the results of our duration of equity calculations to the FHFA each quarter. We measure duration of equity in a base case using the actual yield curve as of a specified date and then shock it with an instantaneous shift of the entire curve.

The following table presents the duration of equity reported by us to the FHFA in accordance with the FHFA's guidance, which prescribes that down and up interest-rate shocks equal 200 basis points. The results are shown by duration of equity in years. The Bank engages in ongoing performance monitoring for its market risk-related models.

Scenario as of	Duration of equity in years	
	March 31, 2024	December 31, 2023
<b>Down 200 bps</b>	<b>-0.2</b>	<b>-1.1</b>
<b>Base</b>	<b>0.7</b>	<b>0.0</b>
<b>Up 200 bps</b>	<b>0.9</b>	<b>0.7</b>

As of March 31, 2024, on a U.S. GAAP basis, our fair value surplus (relative to book value) was \$221 million, and our market value of equity to book value of equity ratio was 103%, compared to \$390 million and 105% at December 31, 2023. The decline in the market value of equity to book value of equity was largely a result of funding spread tightening in the markets.

#### Item 4. Controls and Procedures.

##### Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report (the Evaluation Date). Based on this evaluation, the principal executive officer and principal financial officer concluded as of the Evaluation Date that the disclosure controls and procedures were effective such that information relating to us that is required to be disclosed in reports filed with the SEC: (i) is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

##### Changes in Internal Control over Financial Reporting

For the most recent quarter presented in this Form 10-Q, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

##### Consolidated Obligations

Our disclosure controls and procedures include controls and procedures for accumulating and communicating information relating to our joint and several liability for the consolidated obligations of other FHLBs. For further information, see **Item 9A. Controls and Procedures** on page 83 in our 2023 Form 10-K.
